DETAILED ACTION

- This action is responsive to the following communication: Amendment after final filed on 10/12/07.

Response to Arguments

Applicant's arguments, see pages 4-8, filed 10/12/07, with respect to independent claims 1, 8, and 12 have been fully considered and are persuasive. The prior art rejection of claims 1, 8, and 12 has been withdrawn.

Allowable Subject Matter

- Claims 1-21 are allowable over prior arts of record.
- The following is an examiner's statement of reasons for allowance: The cited prior arts (5229814 to Hube et al; US 6850337 to Anderson et al; 6327051 to Moro et al) of record teach an image forming apparatus for processing print data, but the prior art of record fails to teach and/or suggest "automatically, in response to receiving a confirmation signal which confirms that the operator has completed the requested action, assumes that the installed recording sheets are of the required type and stores information specifying the required type of recording sheet in a location of the memory associated with the eligible tray and in combinations of other features" as cited in independent claims 1, 8, and 12. The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1, 8, and 12.
